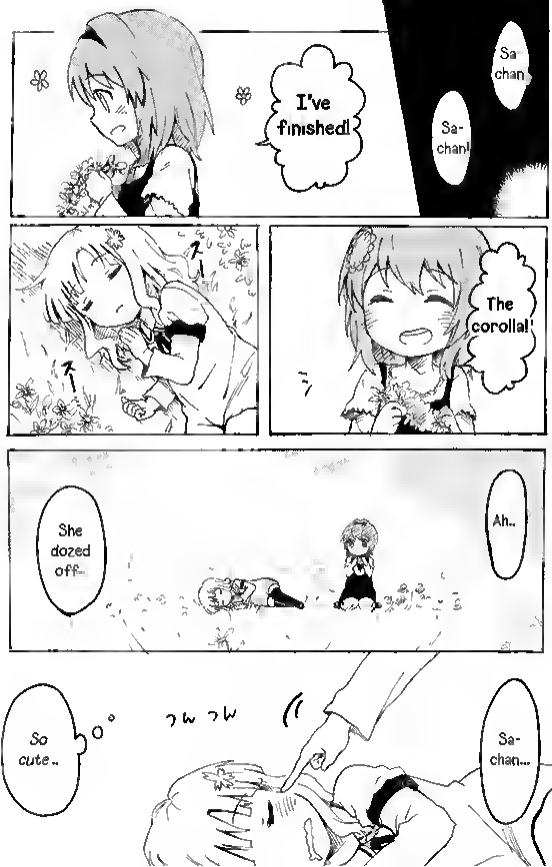
Hima-chan, Hima-chan!
What is it?
I've finished it!
It?
Yes! Look!

A corolla...
If I'd have noticed it back then...

I must have dozed off...

.....

Since when?!
Wai-
Nah...
This place
is as warm and comfort-able as the old days...
I wonder
if this place can surpass my weakness just a little bit

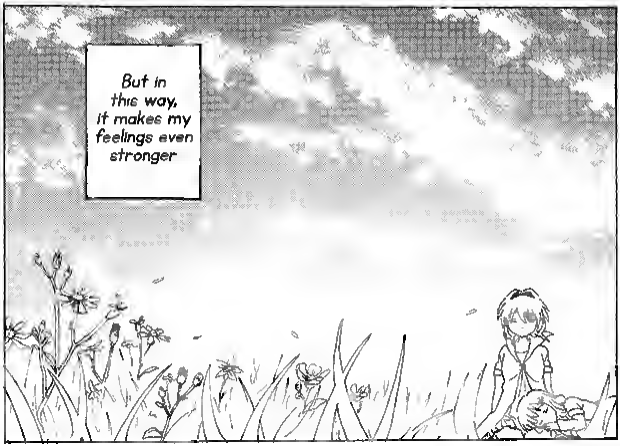


I've finished!
Sa-chan
Sa-chan!
The corolla!
Ah..
She dozed off~
So cute..
Sa-chan...

Naa...
Nnn.
Sa-
wake chan,
up~
Haha
!
She still
sleeps
like a
baby...
It's
like
at
that
time.
Hi...
mawa
ri...
At
that
time
Hima-
chan..

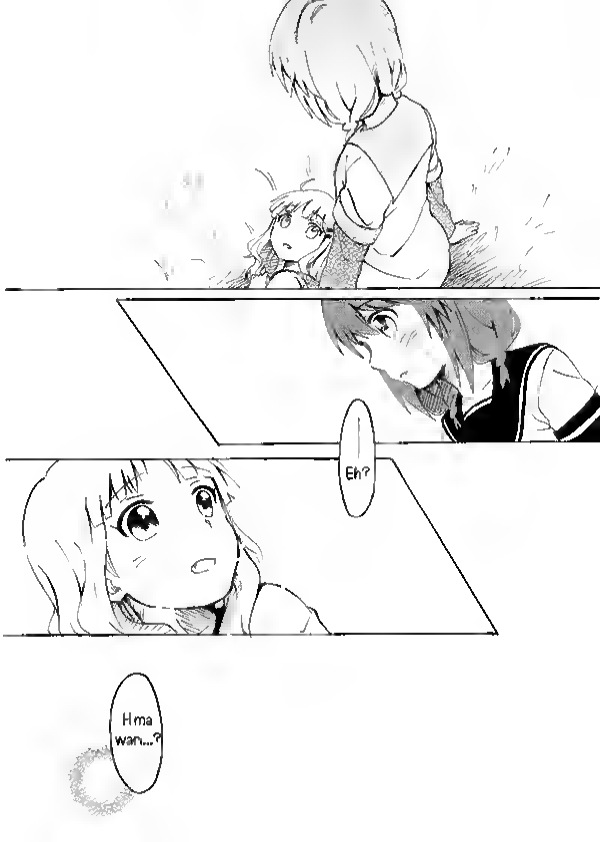
I love you
I lo...
Looks like it comes back
...
H...
Hma... wan..

Nn...
What... can I hope for?
I love ...
As I thought, at this place...
I'm weak
I love you ...



But in this way, it makes my feelings even stronger

...
Saku rako...
I love you.



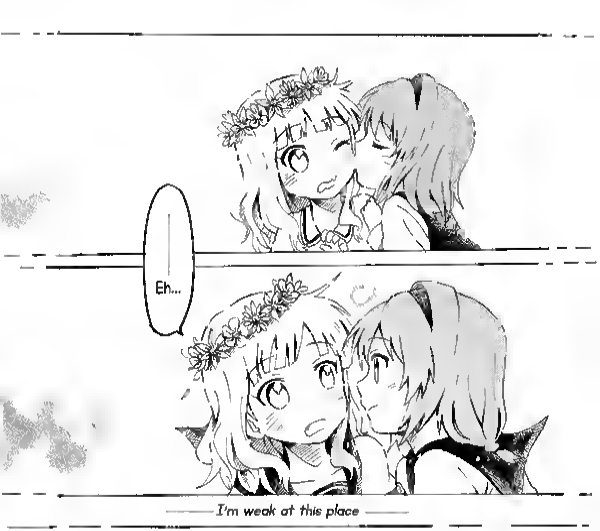
Eh?
Hma wan...?

TN: "I love you" is pronounced as "Suki desu wa" and so does "There's a gap." Himawari looks for alternatives of "suki" (好き) so she chose "gap" (隙).

You're wro-
You also took this position for the moment I fell asleep!
キーン
Eh!?
You wanted to attack me just now!
Haha
You haven't changed at all, have you?
ドン
What do you mean by th-
?

You're as cute as back then
This corolla suits you well
Wha?
Sa-chan, you're finally awake.
drool

Thank you, Hima-chan!
...
Since when?
Ooh!
I also love
everything about you!
Eh?



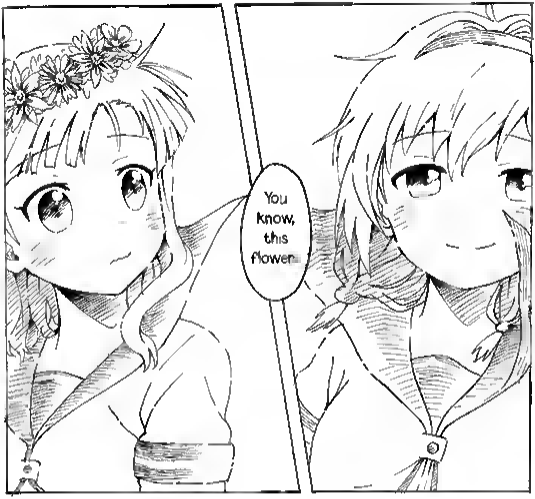
I'm weak at this place

Her heart pounding
and her softness

When she dozes off
and is confused.

They all make my heart
throbs fast and feels warm.

I've always loved this flower since then.



I've fallen in love many times..

The corolla really suits you well.

always with you
